Widening and repair of NHs in Uttar Pradesh

1980. SHRI MAHENDRA MOHAN: Will the Minister of SHIPPING, ROAD TRANSPORT AND HIGHWAYS be pleased to state:

(a) whether Government is aware that Highways passing through Uttar Pradesh (UP) are in very bad condition and in every rainy season the roads develop cracks, potholes and are not repaired for a long time;

(b) if so, the reasons therefor;

(c) how many kilometers of highways pass through UP with the details thereof any how many of them have been repaired, widened and the average speed recommended for these highways; and

(d) whether Government is aware that Kanpur-Jhansi highway is in very bad condition and what has been done to repair and make it motorable?

THE MINISTER OF STATE IN THE MINISTRY OF SHIPPING, ROAD TRANSPORT AND HIGHWAYS (SHRI K.H. MUNIAPPA): (a) and (b) Due to heavy rains during rainy season, some stretches of National Highways in Uttar Pradesh suffered damages which have been repaired/are being repaired. Efforts are being made to keep the roads in traffic worthy condition.

(c) The total length of National Highways in Uttar Pradesh is 5874 km and the details thereof are given in the Statement. (*See* below) Development and maintenance of National Highways is a continuous process. Various works, including repair and widening works, on almost all National Highways in Uttar Pradesh are under different stages of progress. The works are sanctioned depending upon traffic needs, inter-se-priority and availability of funds. The National Highways are normally designed for a speed of 100 kilometer per hour. However, the speed on any particular National Highway depends upon its geometry and condition.

(d) During rains, some patches/potholes developed on some isolated stretches of the Jhansi-Orai-Bognipur-Bara Road and the same has been repaired. The stretch is now in traffic worthy condition.

Statement

The details of the total length of National Highways in Uttar Pradesh
